A HUNTER'S PLEDGE

Responsible hunting provides unique challenges and rewards. However, the future of the sport depends on each hunter's behavior and ethics. Therefore, as a hunter, I pledge to:

- **Respect the environment and wildlife.**
- **Respect property and landowners.**
- **Show consideration for non-hunters.**
- **Hunt safely.**
- **Know and obey the law.**
- **Support wildlife and habitat conservation.**
- **Pass on an ethical hunting tradition.**
- **Strive to improve my outdoor skills and understanding of wildlife.**
- **Hunt only with ethical hunters.**

By following these principles of conduct each time I go afield, I will give my best to the sport, the public, the environment and myself. The responsibility to hunt ethically is mine; the future of hunting depends on me.

Landowners for Wildlife Program

WHAT IS THE LANDOWNERS FOR WILDLIFE PROGRAM?

The Landowners for Wildlife (LFW) program, established in 2008, is a service of the Louisiana Department of Wildlife and Fisheries' Private Lands Program. It is designed to help private landowners accomplish their wildlife conservation goals. After listening to the landowner's goals and evaluating current habitat conditions, professional wildlife biologists will formulate a written plan of action. The plans include wildlife management practices designed to improve habitat conditions for species of landowner interest and to help manage native plant communities. Plans are tailored to meet landowners goals and can incorporate other landowner objectives such as farming, timber revenue and aesthetics. The LFW program is landowner priority directed and flexible, and can assist landowners to connect with other programs that will contribute to the achievement of the landowner's goals.

HOW DO I GET TECHNICAL ASSISTANCE?

Easy! Simply call the nearest Louisiana Department of Wildlife and Fisheries region office (see region map).

HOW MUCH DOES THE LFW PROGRAM COST?

Assistance from LFW program biologists and a written plan are provided at no charge. The actual implementation of the wildlife management plan is the responsibility of the landowner. However, many management practices can be "cost shared" through other programs, which the LDWF wildlife biologist will review with the landowner.

IS LFW COMPATIBLE WITH EXISTING PROGRAMS?

Absolutely! The purpose of the LFW program is to assist landowners in achieving their conservation objectives. Through LFW, landowners are easily plugged into existing programs such as the Deer Management Assistance Program (DMAP), Forest Stewardship Program, Landowner Antlerless Deer Tag Program (LADT) or USDA programs such as Conservation Reserve Program (CRP), Wetlands Reserve Program (WRP), Environmental Quality Incentive Program (EQIP) and Wildlife Habitat Incentive Program (WHIP). The LDWF biologist will be your "one stop" source for all these programs.

ARE YOU CURRENTLY WORKING WITH A PROFESSIONAL OR ARE YOU ENROLLED IN A LAND MANAGEMENT PROGRAM?

If yes, please inform the LFW biologist. Biologists wish to maintain good working relationships with other land management professionals such as consultant foresters and personnel from other state and federal agencies. Each are working to help you achieve your goals.

The rules and regulations contained within this digest have been officially approved and adopted by the Louisiana Wildlife and Fisheries Commission under authority vested by Section 115 of Title 56 of the Louisiana Revised Statutes of 1950 and are considered to be in full force and effect in conjunction with all applicable statutory laws. The Secretary of the Louisiana Department of Wildlife and Fisheries (LDWF) has authority to close or alter seasons in emergency situations in order to protect fish and wildlife resources.

Pursuant to Act 169 of the 1988 regular session of the Legislature, the Louisiana Wildlife and Fisheries Commission has adopted monetary values which are assigned to all illegally taken, possessed, injured or destroyed

fish, wild birds, wild quadrupeds and other wildlife and aquatic life. Anyone taking, possessing, injuring or destroying fish, wild birds, wild quadrupeds and other wildlife and aquatic life shall be required to reimburse LDWF a sum of money equal to the value of the wildlife illegally taken, possessed, injured or destroyed. LANDOWNER ANTLERLESS DEER TAG (LADT)

Eligibility for LADT is limited to the following landowners or lessees:

1. Licensed Deer Farmers;
2. Landowners or lessees with less than 500 acres who have verified deer depredation problems;
3. Landowners with 40 acres or more enrolled in the Louisiana Forest Stewardship Program; and

4. Landowners or lessees with 40 or more contiguous acres of forested or marsh land. Each applicant will be assessed a \$25 administrative processing fee.

Each hunter must have the Landowner Antlerless Deer Tag in his possession while hunting on the property for which the tag was issued and immediately upon kill of an antlerless deer, the hunter must tag the animal through the hock. The deer must be tagged before it is transported from the site of kill and the tag will remain with the deer while the hunter is in route to his domicile. Antlerless deer harvested on property enrolled in LADT does not count in the season or daily bag limit for hunters. For more information contact any Wildlife Division Regional Office.

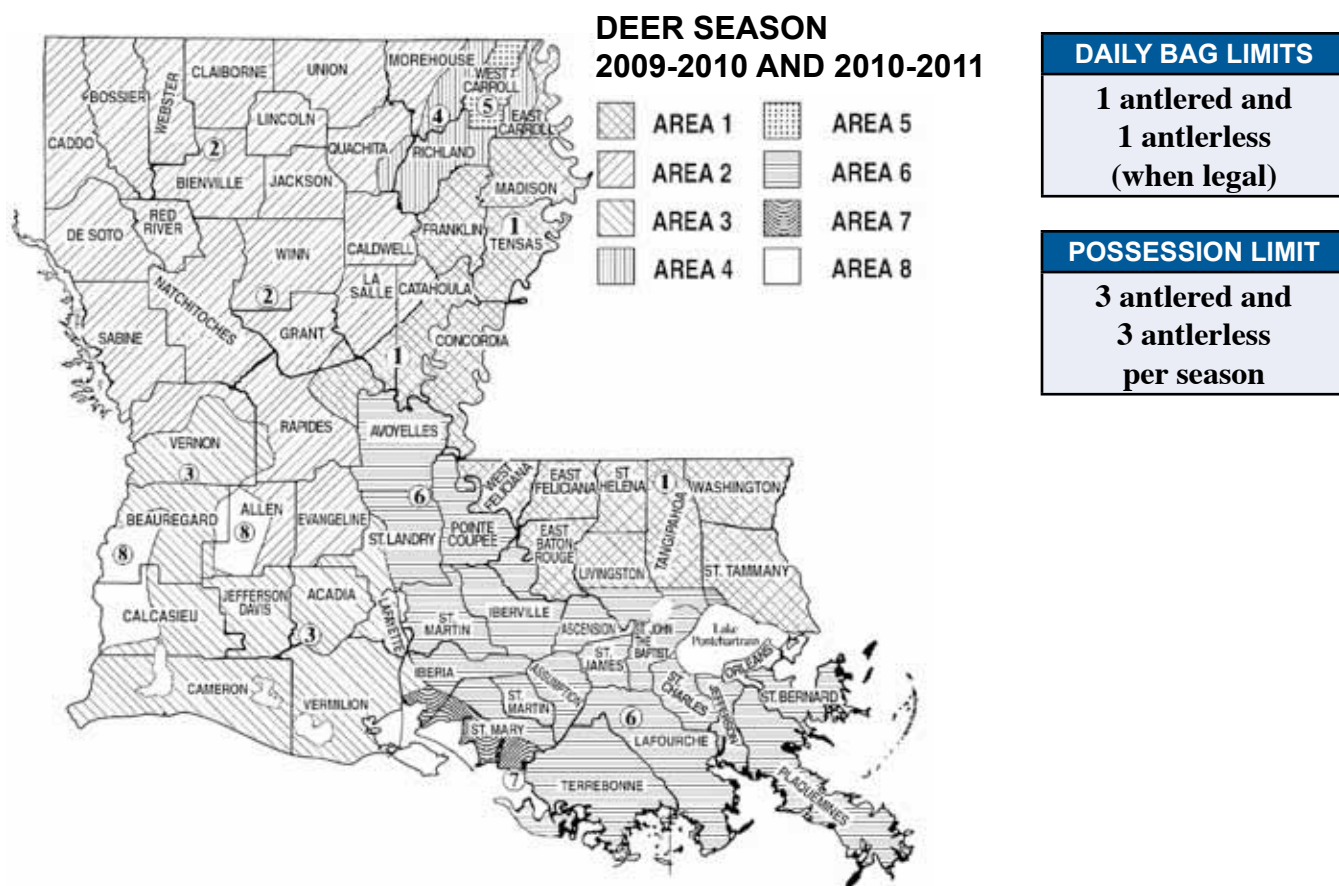

DEER MANAGEMENT ASSISTANCE PROGRAM (DMAP)

Land enrolled in the voluntary program will be assessed a \$25 registration fee and a \$.05/acre fee. Deer management assistance tags must be in the possession of the hunter in order to harvest an antlerless deer. The tag shall be attached through the hock in such a manner that it cannot be removed before the deer is transported (including those taken on either-sex days and those taken with approved archery equipment or primitive firearms). Failure to do so is violation of R.S. 56:115. Antlerless deer harvest on property enrolled in DMAP does not count in the season or daily bag limit for hunters. Failing to follow DMAP rules and regulations may result in suspension and cancellation of the program on those lands involved.

Regulations of the U.S. Department of the Interior and U.S. Department of Commerce strictly prohibit unlawful discrimination in departmental federally assisted programs on the basis of race, color, national origin, age, or handicap. Any person who believes he or she has been discriminated against in any program, activity, or facility operated by a recipient of federal assistance should write to: Director, Office for Equal Opportunity, U.S. Department of the Interior, Washington D.C. 20240.

Tags removed from the Deer Harvest Report Card prior to killing a deer are no longer valid and if lost by the hunter will not be replaced.

Prior to hunting deer, all deer hunters, regardless of age or license status, must obtain deer tags and have in possession when hunting deer. Immediately upon harvesting a deer, the hunter must tag the deer with the appropriate carcass tag before it is moved from the kill site, and the hunter must document the kill on the harvest report card portion of the deer tag license. The hunter must record the date of kill and the parish of kill on the carcass tag. The tag must remain attached to the deer while kept at camp, or while it is transported to the domicile of the hunter or to a cold storage facility. Hunters who keep the carcass or meat at camp must also comply with the game possession tag regulations. Within 72 hours the hunter must validate the kill and record the validation number on the license. Hunters harvesting deer on DMAP and LADT lands should follow the instructions provided to them by LDWF. Hunters may validate deer by calling the validation toll free number, 866-484-4805 or using the validation web site.

DEER TAGGING PROCEDURE FOR LICENSES PURCHASED VIA PHONE OR INTERNET

Hunters purchasing licenses by phone or Internet will be given both an authorization number and an LDWF identification number that will serve as their license until such license arrives by mail. Hunters will tag deer with possession tags, using the authorization number and LDWF identification number for the required license numbers recorded on the possession tag. Hunters will maintain documentation of these harvested deer and will validate harvested deer as required by law when the hunter receives the original license and tags. The hunter will validate the license information from these harvested deer and will discard the license tags for these validated deer.

REPLACEMENT OF LOST TAGS

Single tags are automatically invalid if detached from the license prematurely, not placed on a harvested animal, and then lost by the hunter. Duplicate tags will be available to replace lost tags at a charge to the hunter. Hunters that have harvested deer prior to losing their remaining tags will have to remove and discard the duplicate tags to account for the original tags that have been used and validated. Hunters must record these validated deer on the duplicate deer tag license.

DEER HUNTING REGULATIONS

AREAS NOT SPECIFICALLY DESIGNATED AS OPEN ARE CLOSED.

ANTLER RESTRICTIONS

One antlered and one antlerless deer per day (when legal) **EXCEPT** on some Federal Refuges (check Refuge regulations) and National Forest Lands where the daily limit shall be one deer per day.

Season limit is six, three antlered deer and three antlerless deer (all segments included) by all methods of take, **EXCEPT** antlerless harvest on property enrolled in DMAP and LADT does not count in the **season or daily** bag limit for hunters. Antlerless deer may be harvested during entire deer season on private lands (all segments included) **EXCEPT** in the following parishes:

Killing bucks without at least one visible antler as described above and killing does is prohibited **EXCEPT** where specifically allowed, and **EXCEPT** in Thistlethwaite WMA where a legal buck shall be defined as a deer with at least four points on one side or a deer with unbranched antlers commonly referred to as spikes (no minimum length). The thing about trees is, you
can be miles from the forest
and they still touch you.

Trees can provide the roof over your head. The floor under your feet. The paper your favorite book is written on and the chair you sit on while you read it. At Weyerhaeuser we plant over 100 million new seedlings every year to replenish the forests that provide thousands of products like these, and that help keep our air and water clean. That way we'll never run out of trees. And no matter where you are, the forest will never be more than an arm's length away.

SUMMARY OF FEDERAL REGULATIONS

In addition to state regulations, the following federal rules apply to the taking, possession, shipping, transporting and storing of migratory game birds:

RESTRICTIONS

No person shall take migratory game birds:

- with a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10-gauge, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive or stupefying substance.
- with a shotgun capable of holding more than three shells, unless it is plugged with a one-piece filler which is incapable of removal without disassembling the gun.
- from a sink box (a low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water).
- from or with the aid of a car or other motor-driven land conveyance or any aircraft, **EXCEPT** that paraplegic and single or double amputees of the legs may take from any stationary motor vehicle or stationary motor-driven land conveyance. A baited area is considered to be baited for 10 days after complete removal of any bait. Baiting includes placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Agricultural areas must be prepared in accordance with official recommendations to be legally hunted. It is a separate offense to place or direct placement of bait on or adjacent to an area that causes, induces or allows another to hunt by the aid of bait or over a baited area. Hunters are responsible for ensuring that an area has not been baited and should verify its legality prior to hunting. The maximum federal penalties are: for hunting over bait; \$15,000/ six months jail, and placing bait; \$100,000/one year jail.

2009-2010 WILDLIFE MANAGEMENT AREA (WMA) REGULATIONS

The following rules and regulations concerning the management, protection and harvest of wildlife have been officially approved and adopted by the Louisiana Wildlife and Fisheries Commission in accordance with the authority provided in Louisiana Revised Statutes of 1950, Section 109 of Title 56. Failure to comply with these regulations will subject the individual to citation and/or expulsion from the management area.

Citizens are cautioned that by entering a WMA managed by LDWF, they may be subjecting themselves and/or their vehicles to game and/or license checks, inspections and searches.

WMA seasons may be altered or closed anytime by LDWF's Secretary in emergency situations (floods, fire or other critical circumstances).

Hunters may enter the WMA no earlier than 4 a.m. unless otherwise specified. Hunters must check out **daily** and exit the WMA no later than two hours after sunset, or as otherwise specified. Reference individual WMA listings for specific requirements.

Lands within WMA boundaries will have same seasons and regulations pertaining to baiting and use of dogs as the WMA within which the lands are enclosed; however, with respect to private lands enclosed within a WMA, the owner or lessee may elect to hunt according to the regular season dates and hunting regulations applicable to the geographic area in which the lands are located, provided that the lands are first enrolled in DMAP or LADT. Interested parties should contact the nearest LDWF regional office for additional information.

Dumping garbage or trash on WMAs is prohibited. Garbage and trash may be properly disposed of in designated locations if provided.

Disorderly conduct or hunting under the influence of alcoholic beverages, chemicals and other similar substances is prohibited.

Damage to or removal of trees, shrubs, hard mast (including but not limited to acorns and pecans), wild plants and non-game wildlife (including reptiles and amphibians) or any species of butterflies, skippers or moths is prohibited without a permit from LDWF.

Burning of the marsh is prohibited. Hunting actively burning marsh is prohibited.

Free ranging livestock prohibited.

Gathering and/or removal of soft fruits, mushrooms and berries shall be limited to five gallons per person per day.

Nature Trails: Trails shall be limited to pedestrians only. No vehicles, ATVs, horses, mules, bicycles, etc. allowed. Removal of vegetation (standing or down) or other natural material is prohibited.

Deer seasons are for legal buck deer unless otherwise specified.

Small game, when listed under the WMA regulations, may include both resident game animals and game birds as well as migratory species of birds.

Oysters may not be harvested from any WMA, **EXCEPT** that oysters may be harvested from private oyster leases and State Seed Grounds located within a WMA, when authorized by the Wildlife and Fisheries Commission and upon approval by the Department of Health and Hospitals.

PERMITS

SPECIAL NOTE: A WMA HUNTING PERMIT, WHICH COSTS \$15.00, IS REQUIRED FOR PERSONS AGE 18-59 TO HUNT ON WMAS.

On WMAs where Self-Clearing Permits are required, all persons must obtain a WMA Self-Clearing Permit from an Information Station. The **check-in** portion **must** be completed and put in a permit box **before** each day's activity on the day of the activity. **EXCEPT** if hunting from a private camp adjacent to the WMA being hunted or if camping on the WMA, users need only to check in once during any 72 hour period. Users may check in one day in advance of use.

The **check-out** portion must be carried by each person while on the WMA and **must** be completed and put in a permit box immediately upon exiting the WMA or within 72 hours after

checking in if hunting from a private camp adjacent to the WMA being hunted or if camping on the WMA.

Each person must leave the **Vehicle Tag** portion of his permit on the dashboard of the vehicle used to enter into the WMA in such a way that it can be easily read from outside of the vehicle. This **must** be done only when the vehicle is parked and left unattended on the WMA. If an ATV, boat or other type vehicle was used to enter the WMA then the vehicle tag must be attached to that vehicle in such a manner that it can be readily seen and read.

No permit is required of fishers and boaters who do not travel on a WMA road and/or launch on the WMA as long as they do not get out of the boat and onto the WMA.

Self-Clearing Permits are not required for persons only traveling through the WMA provided that the most direct route is taken and no activities or stops take place.

Persons using WMAs or other LDWF administered lands for any purpose other than hunting must possess one of the following:

1. a valid Wild Louisiana Stamp
 2. a valid Louisiana fishing license
 3. a valid Louisiana hunting license
- Persons younger than 16 or older than 60 years of age are exempt from this requirement. Also a self-clearing WMA permit, detailed above, may be required, (available at most entrances to each WMA). Check individual WMA listings starting on page 28 for EXCEPTIONS.

Tractor or implement tires with farm tread designs R1, R2 and R4 known commonly as spade or lug grip types are prohibited on all vehicles.

Airboats, aircraft, personal water craft, "mud crawling vessels" (commonly referred to as crawfish combines which use paddle wheels for locomotion) and hover craft are prohibited on all WMAs and refuges. Personal water craft are allowed on portions of Alexander State Forest WMA. See WMA for specific details.

ATVs and motorcycles cannot be left overnight on WMAs **EXCEPT** on designated camping areas.
